This year has been truly extraordinary. Our students have not only excelled academically with outstanding board results and scholarships, but they have also demonstrated excellence across co-curricular, extra-curricular, and sports. From science and innovation to arts, culture, and athletics, every platform echoed the brilliance and dedication of our young achievers.

"Success is the sum of small efforts repeated day after day."

The academic year 2025-26 has been highly productive and rewarding. Once again, our students have proven that dedication, discipline, and determination lead to excellence. This collective success is the school's greatest achievement,
